As a dedicated and ambitious web development student at Fanshawe College, I am eager to contribute my programming and design skills to your organization. Seeking a challenging internship opportunity to leverage my proficiency in HTML, CSS, JavaScript ES6, React, Node JS, Django, and strong understanding of REST and API communication.

EDUCATION

07/2023 – 05/2024 *Expected Graduation*, Canada

Advanced Diploma, WEB DEVELOPMENT Fanshawe College

02/2018 – 06/2020 Cyprus

MSc, INFORMATION TECHNOLOGY Cyprus International University

07/2010 – 06/2016 Nigeria

BTech, INFORMATION MANAGEMENT TECHNOLOGY Modibbo Adama University of Technology, Yola

RELEVANT COURSE WORK

- Web Design and Development
- JavaScript and React Development
- Frontend Development Best Practices
- Database Management with MongoDB
- Express and Node.js Development
- JavaScript

SKILLS

Frontend Framework: Strong proficiency in HTML, CSS, JavaScript ES6, React

Backend Communication: REST, API calls

Object-Oriented Programming: Solid understanding of OOP, design patterns, architecture

Testing and Debugging: Proficient in identifying and resolving performance concerns

Knowledge of AWS cloud platform for back-end development

Proficient in version control systems like Git

Strong communication and collaboration abilities

ACADEMIC PROJECTS

[MEMORY CARD GAME] - [JavaScript]

- Developed and implemented frontend and backend functionalities using JavaScript, HTML and CSS for this web game that randomly generates cards and reshuffles them till the gamer successfully matches pairs.

[ONLINE SHOPPING APPLICATION] - [JavaScript]

- Developed and implemented backend functionalities using JavaScript for this shopping app that allows users select products, make adjustments to their cart, and checkout. Immediately the shopper checks out a receipt is generated.
- I also made it possible for the admin to add or remove from the product list and determine what the tax it. By extension the admin had full CRUD functionality in this application.

[Fully Responsive e-Commerce Website] – [JavaScript and React Development]

- Developed and implemented the frontend of an e-commerce website using HTML, CSS, and JavaScript with React as the framework.

PROFESSIONAL EXPERIENCE

08/2023 – *Present* **Canada**

FREELANCER, Canada

- Developed and implemented frontend functionality using React, contributing to the overall success of projects.
- Collaborated with a development team and UX designers to ensure high-quality product capabilities.
- Implemented agile delivery practices for faster development and deployment.
- Delivered high-quality, testable code for web applications.
- Worked on version control using Git, ensuring seamless code collaboration.
- Demonstrated strong problem-solving skills in identifying and resolving performance concerns during the development process.
- Engaged in Agile development practices, taking ownership of feature development from design hand-off to inception.
